Pixel Perfect Precision and a can-do approach is what I always try to achieve..

WORK EXPERIENCE

Front End Developer
Mar 2022 - Present

RICHKID

- Building and maintaining websites and landing pages from concept through deployment.
- Reduced self working time on projects by 40% by writing clean and reusable code (always improving).
- Creating custom websites and pages using the company's internal CMS, JavaScript and C#.
- Constantly Collaborating with project managers and designers.
- Developing re-designs, bug fixes and seasonal updates.
- **HTML, CSS, JavaScript, React, jQuery, Git, C#.**

IT Support Specialist
May 2020 - Dec 2020

Maccabi Health care

- Gave daily technical support to 5000+ end users, solved various technical problems while monitoring over new applications and programs that were constantly being added.
- Shortened and made the IT support calls more effective each day by correcting wrong solutions and adding new ones in the support solutions website.

Graphic Design Team Leader
Nov 2017 - Jul 2019

Israel Defense Forces

- Served in the design team of the Mofet unit, helped create multiple designs for the unit's personal interest, one of them being the current logo of the unit.
- Took part in producing a vacation tracking website for career soldiers.

PROJECTS

Portfolio App

https://roimalka.com

- Built a website for my projecs and contact.
- Utilized media queries and Framer Motion to make the site fully responsive with animations.
- **React, Sass, Framer Motion.**

Live Weather App

https://roi-malka-weather-app.netlify.app

- A weather app that displays a city's current and next week weather on user search.
- Gave the users the ability to save a city to favourites using Redux.
- **React, Redux, Accuweather API, Sass.**
